a $\alpha = 2$, $\beta = 3.42$: crossing exists
$P^* = 17.3$
$s_B - s_{C2}$
[P]
b $\alpha = 30$, $\beta = 3.42$: no crossing
$P^* = -31.9 < 0$
no root in the physical domain
$s_B - s_{C2}$
[P]
